

Policy Declaration for SMS/Call Log for HIMPESA

1>Himpesa is an official banking app. Some permission is required to be in use like receive and Read OTP.

2>SMS Permission Usage - The app requests RECEIVE_SMS and READ_SMS permissions solely for the purpose of reading OTPs (One-Time Passwords) to simplify and secure the login and transaction processes. - HIMPESA does not read, collect, or store any personal SMS content beyond OTPs sent by financial institutions.

3>No remote-access software or SMS-forwarding apps should be installed, Himpesa actively blocks access if such apps are detected.

4>It does not store your passwords, email, or personal media.

5>It does not read your contact list and call logs.
